Letter of Reference;

Fifthshire Homes prides itself on using the most experienced and reputable companies to carry its reputation to all of its customers. Our experience with the team at Superior Web Solutions has been nothing short of excellent, they are true specialists in the fields of web and print design, mapping, 3D renderings and website construction.

We employed their expertise on two separate projects with very crucial time lines and they met and exceeded our expectations for quality, costs, delivery and performance.

The result of their expertise, SWS has become our preferred technology partner and we will certainly be partnering with them again with our future projects.

Sincerely;

Joseph A. Vella

Vice-President

Fifthshire Homes Limited
